To Whom it May Concern,

I am writing to express my support for Xavier House Unlimited, Inc, and their proposed foster care group home in Gainesville, Fl. This facility will provide much-needed placement and support services to high-potential youth in the foster care system in Alachua County and the surrounding area.

As we all know, the foster care system can be incredibly challenging for young people. These young people often face difficulties such as placement and school instability that can impede their growth and development. In the midst of these difficulties, it can be hard for them to get the support they need to reach their full potential. Xavier House would provide much needed assistance in filling this critical gap.

The proposed Xavier House group home will provide these high-potential youth with a safe and supportive environment, where they can receive the guidance, resources, and opportunities they need to thrive. The highly trained staff at Xavier House will work closely with each youth to ensure that they are receiving the appropriate services and support to meet their individual needs. Services I am particularly excited about include:

- Education Assessment and Remediation
- Specialized Social-Emotional Learning
- Independent living skills and real-world hands-on projects
- Culture of curiosity and respect for learning
- Support for higher education readiness and skilled trade pathways
- Ongoing enrichment activities
- Normalcy activities
- Specially trained staff

I strongly believe that Xavier House will make a positive impact in the lives of these young people and help them to reach their full potential. I wholeheartedly support this initiative, and I encourage you to do the same.

Sincerely,

Ginger Griffeth
President and CEO
